LCR Disclosure

Background:

The Reserve Bank of India has prescribed monitoring of sufficiency of NBFC's liquid assets pursuant to RBI/2019-20/88 DOR.NBFC (PD) CC. No.102/03.10.001/2019-20 dated 04 November 2019. The Liquidity Coverage Ratio (LCR) is aimed at measuring and promoting short-term resilience of NBFCs to potential liquidity disruptions by ensuring maintenance of sufficient high quality liquid assets (HQLAs) to survive an acute stress scenario lasting for 30 days.

The ratio comprises of high quality liquid assets (HQLAs) as numerator and net cash outflows in 30 days as denominator. Cash outflows are calculated by multiplying the outstanding balances of various categories or types of liabilities by 1.15 times and cash inflows are calculated by multiplying the outstanding balances of various categories of contractual receivables by 0.75 times.

Accordingly, LCR as at Dec 31, 2020 is as under:

*Rs in crores
